PURPOSE OF CONSULTATION (Please Print)

Brief summary of patient's condition and specific question for consultant.

TO BE COMPLETED BY PHYSICIAN

Needs dietary, nutritional consult as NIDDM - also kosher diet. States having diarrhea and needs cause "stomach cramps". We need a diet to be nutritious, sufficient and also be kosher. I have enclosed record of his food intake - Also copies of his letters - As of 8/8/07 he has only had soft Buns not kosher as he claims (Sh. Englander - (DT))

CONSULTANT'S NOTES:

FAK 663-6735 - Current needs see attached sheet - 8/10/07
Findings: noted polypharmacy - Food/Drug INTERACTIONS may contribute to GI complaints. PT STATED NO GI complaints when he doesn't eat the meals "Kosher". But substitutes bread + WATER. NUTRITIONAL BALANCE LACKING. STATES SHE'S STABLE KOSHER MEALS DISAGREE WITH HIS STOMACH. FROZEN DO NOT THE CURRENT ones are too spicy. I WAS FINE WITH PRIOR MEALS. Desires Weight Regain. Reported Height of 5'10" + AT slouching HT 5'7" BMI IS 22.8. Diagnostic Impression: C/O GI upset ASSOCIATED WITH MEALS C/O weight loss R/T MEAL. Current BMI of 21 indicates normal weight range, lean appearance.

Recommendations:

Balanced Kosher diet, 2000-2500 (185 lb) 70-100g protein. Will Follow Diet and Medical And Food service to discuss goals + Alternates.
